GEORGE CHUNG
EDITOR OF AUDIOTECHNIQUE HONG KONG:

Gorgeous Structure & Competitive Price

Although MONTANA follows the fundamental structure and principles of vinyl record player with a history over a hundred of years, it turns the situation around. Just because ACOUSTIC SIGNATURE guarantees quality. Every key parts of the turntable is developed and manufactured in-house at the German headquarter, and thoughtfully use the state of the art CAD/CAM system brought by the computer era to help to achieve each of the strict production procedures. The craftsmanship of the ACOUSTIC SIGNATURE MONTANA is superb. Each individual portion of the structure can be combined flawlessly and accurately, making this gorgeous turntable a high-tech and stylish in one, reaching the flagship level directly!
